

# Mini 2 Pin Strip to Strip Clamp Connector

Model: CL10BB-2

**LED WORLD**  
ledworldlighting.com | ledworld.ca  
1-800-387-4081

**CAUTION:** Max 5 Amps 12/24VDC (low voltage). Use only with Class 2 power supply. Max 120 LEDs/Meter. Indoor dry location use.

**ATTENTION:** Utiliser seulement avec la classe 2 bloc d'alimentation.

For use only with LED World's type A (IP20) 12VDC and 24VDC 10mm wide LED Flex Strips. Not to be used with Type B or C (Strips that have covers or coatings).

**IMPORTANT NOTE:** Check the Polarity and make sure that connector contact points are directly over (and centered) the LED Flex Strip connector pads. Do not connect LED strips at soldered contact points.

## INSTALLATION STEPS

1 Cut the LED Strips at the cut mark (pads)

2 Remove the wax paper from back of the LED Strips

3 Push both LED Strips into contact points over pads. Close the cap gently

4 Complete the LED Strip connection using pliers. Make sure connection is locked at base of connector

5 Test Connection
